## DID YOU KNOW?

The Specker Library has a study/meeting room that students and faculty can use for private study or group discussion. The room is equipped with a television, a computer workstation, a VCR/DVD player, and a table accommodating up to six people. You may reserve the room by contacting our circulation desk at 219-473-4373.

## FINDING RESOURCES IN THE FIELD OF CRIMINAL JUSTICE

As many of you know, our library's collection is divided into broad areas and the front of each aisle is labeled with a set of letters to help you identify where books are located. Books in the area of criminal justice are located on the first floor, under the subheading "HV." The **KF section** of the library, also located on the 1st floor, contains law books (statutes, citations, etc.) that may be helpful for research in this area. Lastly, students and faculty have access to a multitude of information through our two criminal justice databases : Westlaw and Criminal Justice Abstracts).

## SPOTLIGHT : LONG-TIME LIBRARIAN TO LEAVE
