

SPECKER LIBRARY NEWSLETTER

BIMONTHLY NEWSLETTER

VOL 2, ISSUE I (JANUARY 26TH 2016)

IN THIS ISSUE

Welcome new and returning students and faculty! In this first issue of the Specker Library Newsletter for this year, we introduce our new library staff, discuss the launch of our “Research Guides” platform, and note the library’s implementation of a new search tool.

- Milan Kolundzija, Editor

FEATURE

NOT SURE WHERE TO START YOUR SEARCH ?

Knowing where to start your search can be difficult. Luckily, the library has made the process simple. Recently, the library implemented a new search tool on our website that allows students and faculty to search for books, eBooks, and articles all from one place! Simply visit our [website](#), scroll to the bottom, select the tab corresponding with what you are looking for, and begin your search!

SPECKER LIBRARY WELCOMES NEW LIBRARY STAFF

This semester the library welcomes several new staff members to its team. Three new student workers will be helping the library : Lionel Webb (freshman), Priscilla Aponte (junior), and Brittini Kisul (junior). In addition, the library also welcomes Professor Martin Martinez, who will be working part time in the library, and part time in the archives. The library is excited they are joining our team and we look forward to hearing their feedback on improving the library.

LIBRARY LAUNCHES “RESEARCH GUIDES” PLATFORM

The Specker Library officially launched its new “Research Guides” web platform this week. This new tool allows students to quickly find resources relevant to their particular area of study that are available in the library and online. For example, as you can see on the left, the “Business Management” guide has pages where students can find relevant books, articles, and web resources in that area. The library is also working on “how-to” guides, a set of

tutorials that will help students understand how to use various library tools. To access this new tool, visit our website and click on the “Research Guides” button, which is located below the main picture.

Next Issue (February 17th) : To be determined.
