Emmett Betts was particularly interested in the role of the classroom teacher in encouraging students to see reading as a lifelong experience. Your response should be no shorter than 1 page and is due on blackboard on September 22 by 11:00pm.

Class assignment- Read the following student case and answer the following questions.

Jessica is a third grader. She is described by her teacher as a capable decoder and fluent, expressive oral reader. School records indicated that Jessica had done well in first and second grades. However, during the first semester of third grade, she began to experience difficulties. Her performance in reading was inconsistent and her achievement in science and social studies was poor. Jessica was asked to read a second grade familiar narrative with pictures. She scored at an independent level for word identification and comprehension. She was then given a third grade narrative. Responses to the concept questions revealed that the subject of the narrative was a very familiar topic to Jessica, and she scored at an instructional level for word identification and comprehension. She was then asked to read a third grade expository passage orally. Concept questions revealed that the topic was unfamiliar. Although her word identification score placed in the instructional range, she scored at a frustration level for comprehension. Jessica was asked to read a familiar third grade narrative silently. She did so with an acceptable rate and scored at an instructional level for comprehension.

- a) How accurate is the student in identifying words?
- b) Which types of text can the student handle most successfully?
- c) How does the student perform on familiar and unfamiliar texts?
- d) What word identification and/or comprehension strategies, if any, does the student employ while reading?
- e) Given the information, what strategies would you suggest and why?

Complete in class on September 28.

- 10 pts- If 5 questions answered correctly
- 5 pts- Information missing from answers
- 3 pts- All questions answered incorrectly.

**Class Policy on Attendance:**

Students are expected to be present and on time for all classes. Hands-on experience and class interaction are invaluable – and cannot be “made-up” individually. A student missing more than 2 classes will be in danger of failing the class, more than 2 absences will result in an automatic withdrawal from the class. Excessive tardiness (10 minutes from the state of class) will result 5 points deducted from the final grade for each tardy.

**Format for Written Assignments:**

The professional Education community has adopted the standards in the Publication Manual of the American Psychological Association, 4<sup>th</sup> Edition, Washington, 1994. The professional standards described therein are those expected in the professional education community; as future professional educators, students of education also need to demonstrate in their writing the standards adopted by the professional education community. This publication is available in the bookstore and in the reference section of the Speckler Library.

**Statement of Plagiarism:**

If an instructor or other Calumet College of St. Joseph personnel find that a student has plagiarized or been involved in another form of academic dishonesty, the instructor or other personnel may elect to bring the matter up for judicial review. The maximum penalty for any form of academic dishonesty is dismissal from the College. The procedures for judicial review are listed under the section of CCSJ handbook that addresses student grievances.

Calumet College of St. Joseph adheres to citation guidelines as prescribed by the particular discipline (i.e., MLA, APA, Chicago Manual of Style or Turbine.). All of these guidelines are available in the Calumet College of St. Joseph library or bookstore. These texts outline how to cite references from a variety of sources, including electronic media.

**Withdrawal from Classes Policy:**

After the last day for class changes has passed (see College calendar), students may withdraw from a course in which they are registered with permission from the faculty member conducting the course. A written request detailing the reason(s) for the withdrawal must be filed with the Registrar. Written request for withdrawal must be received by the Registrar by the last day of classes prior to the final examination dates specified in the catalogue. Written requests may be mailed to the Registrar or faxed to the College fax number 219-473-4259. Students are to make

note of the refund schedule when withdrawing from courses. The request is forwarded to the faculty member, who makes the final determination to accept or deny the request. If the request is honored, the student will receive notification of official withdrawal; if denied, the notification will indicate why the withdrawal is disallowed. Note: Degree Completion Division (DCD) students should consult the DCD Student Handbook for information on DCD withdrawals.

An official withdrawal is recorded as a "W" grade on the student's transcript. Dropping a course without written permission automatically incurs an "F" grade for the course (see Refund Schedule).

**Class Policy For Assignments:**

There are no make-up quizzes and no make-up exams; these are given once. Assignments need to be completed as scheduled since one assignment builds on another. Late assignments incur a grade reduction. Please note the timetable for the deadline for late assignments. Quizzes and assignments are usually announced in advance and will typically cover readings assigned for class that day.

**Class Assignments:**

A number of assignments will be made during the course. It will be your task to do the assignment in a *professional manner*. Each assignment will be graded on content, style, reflection, and a demonstrated understanding, application, or evaluation of the material. Assignments will also be graded on clear writing (unity, coherence, sound writing mechanics) and adherence to APA format.

**Class Participation:**

Class Participation can be difficult to assess. This course, therefore, will link ATTENDANCE to this area of evaluation. That is, if the students are in attendance for an entire class period, it will be assumed they are participating. Students are expected to be present and on time for all classes. Class interaction is invaluable – and cannot be “made-up” individually.

**Class Cancellation:**

I will make every effort to contact you if a class is cancelled due to the unexpected absence of the instructor. In addition, an announcement will be posted on the Education Bulletin Board and the Classroom door
