ccsj.edu

Calumet College of St. Joseph is a Catholic institution of higher learning dedicated to the academic, spiritual and ethical development of undergraduate and graduate students. Informed by the values of its founding religious community, the Missionaries of the Precious Blood (C.P.P.S.), the College promotes the inherent dignity of all people, social justice, an ethic of service, student empowerment, opportunity, and lifelong learning.

COURSE SYLLABUS, Spring 2019**Course: GEOL 110LA – Earth & Space Science Lab****Instructor Information:**

Instructor Name	Ronald Kozlowski
Office Number:	Room 531
Phone Number:	219-798-3516
Email:	rkozlowski1@ccsj.edu
Hours Available:	By Arrangement
Instructor Background: B.S. Chemistry (1977), M.S. Mgmt (1981), TtoT CCSJ, Adjunct at Purdue Northwest Chemistry Department. Worked for the chemical industry for 30 years.	

Course Information:

Course Time:	Lab A1: Monday Noon – 1:30 p.m. Lab A2: Wednesday Noon -1:30 p.m.
Classroom:	336
Prerequisites:	Must be concurrently enrolled in GEOL 110.
Required Books and Materials:	An Introduction to Physical Science, 13 th Ed., Shipman, et. al., 2013.
Learning Outcomes/ Competencies: Students in this course will: <ul style="list-style-type: none">• Explain how scientific explanations are formulated, tested, and modified or validated.• Distinguish between scientific and non-scientific evidence and explanations.• Apply foundational knowledge and discipline-specific concepts to address issues or solve problems.• Apply basic observational, quantitative, or technological methods to gather data and generate evidence based conclusions.• Use current models and theories to describe, explain, or predict natural phenomena.	

- Locate reliable sources of scientific evidence to construct arguments related to real world issues.
- Students will, at an introductory level, read analytically, synthetically, and critically in a variety of genres.
- Students will, at an introductory level, write in a variety of forms using valid logic, persuasive rhetoric, and correct grammar, usage, and punctuation.
- Students can, at an introductory level, represent, apply, analyze, and evaluate relevant qualitative and quantitative mathematical and scientific evidence (i.e. equations, graphs, diagrams, tables, words) to support or refute an argument.
- The student will, at an introductory level, be able to apply ethical standards to social issues and analyze their own core beliefs and the origin of these beliefs.
- communicate effectively both in written and oral forms:
 - Students will keep a homework notebook. Students will write short essays after viewing films about volcanoes, caves, floods, hurricanes and other appropriate subjects. Students will keep a cloud journal.
- gather, interpret and analyze data
 - Students will learn to collect data in the laboratory, create graphs, compare qualitative and quantitative data and draw conclusions about the data obtained.
- demonstrate the ability to think critically, abstractly and logically
 - The Scientific Method is predicated upon deductive and inductive logical reasoning. Students will study applications of the scientific method to information gathered by the scientific community. Students will use the scientific method during laboratory activities.
- work with a variety of technologies
 - Students use computers, digital imaging devices, media, the Internet, podcasts, all in the pursuit of scientific knowledge.
- exhibit social and ethical responsibility
 - This very serious goal is addressed on many levels in the physical science course, from the discussion of the factors that brought about the destruction of New Orleans during hurricane Katrina to the problems with disappearing groundwater. Many references are made to the connection between geology, meteorology and astronomy to social and ethical responsibility.
- perform productively in the workforce
 - Organizational skills are improved in this general education course. Scientific literacy is developed.
- demonstrate the ability to learn independently
 - Students are given independent projects to complete in the course. They are also given questions to research independently. Reporting these results to the class develops their ability to speak confidently to their peers.
- gain awareness of their role in the global community
 - By discussing the way that physical science is connected to other occupations and careers we develop student awareness about their career choice and its dependencies on a basic understanding of the general science.

This course meets the following program objectives: General Education option in Natural Sciences.

Course Description: Earth and Space Science is a course focusing on the study of the Earth's litho sphere, atmosphere, hydrosphere, and its celestial environment. Students enrolled in this course analyze and describe Earth's interconnected systems and how they are changing due to natural processes and human influence.

(This course is a CCSJ General Education option in Natural Sciences.)

Learning Strategies: Problem solving skills, group discussion, brainstorm ideas, Student Centered Learning, Collaborative Learning, and Lectures.
Experiential Learning Opportunities: following experiential learning activities are used in this class: problem-based learning, and project-based learning activities.

Assessments:	
Major Assignments:	There will be approximately 8 – 10 (points will be adjusted accordingly) assignments and quizzes. Each student will be expected to solve the problems on his/her own time. Some of the problems will be used as examples in class; and, additional practice problems will be distributed throughout the semester to accommodate additional support. Students should ask for help if there is a need for assistance in solving problems assignments.
Class Participation:	Your participation is expected and required. You are responsible for doing the reading in advance, and taking an active role in class activities and discussion.
Grading Scale:	
100 – 92: A 91 – 90: A- 89 – 88: B+ 87 – 82: B 81 – 80: B- 79 – 78: C+ 77 – 72: C 71 – 70: C- 69 – 68: D+ 67 – 62: D 61 – 60: D- 59 and below F	

Course Schedule:		
Week	Topic	Chapter
1	Introduction/Measurements	1
2	Place and Time	15
3	The Solar System	16
4	Moons and Small Bodies	17
5	Exam 1	
6	The Universe	18
7	The Atmosphere	19
8	Atmospheric Effects	20
9	Plate Tectonics	21
10	Exam 2	
11	Minerals, Rocks, Volcanoes	22
12	Surface Processes	23
13	Geologic Time	24
14	Final Exam	

I reserve the right to change this schedule to meet the needs of the class.

Responsibilities	
Attending Class	You cannot succeed in this class if you do not attend. We believe that intellectual growth and success in higher education occur through interaction in the classroom and laboratories. However, we do not want to penalize students for participating in college-sponsored events. When you miss class because of a college event, you must give notice of your absence in advance, and you are responsible for all missed work. Being absent doesn't excuse you from doing class work; you have more responsibilities to keep up and meet the objectives of this course.
Turning In Your Work	You cannot succeed in this class if you do not turn in all your work on the day it is due. Assignments are to be turned in one week after they are assigned. Late work will be accepted if approval is obtained from the instructor.
CCSJ Student Honor Code	This course asks students to reaffirm the CCSJ Student Honor Code: I, as a student member of the Calumet College academic community, in accordance with the college's mission and in a spirit of mutual respect, pledge to: <ul style="list-style-type: none"> • Continuously embrace honesty and curiosity in the pursuit of my educational goals; • Avoid all behaviors that could impede or distract from the academic progress of myself or other members of my community; • Do my own work with integrity at all times, in accordance with syllabi, and without giving or receiving inappropriate aid; • Do my utmost to act with commitment, inside and outside of class, to the goals and mission of Calumet College of St. Joseph.
Using Electronic Devices	Electronic devices can only be used in class for course-related purposes. If you text or access the Internet for other purposes, you may be asked to leave, in which case you will be marked absent.
Participating in Class	You must be on time, stay for the whole class and speak up in a way that shows you have done the assigned reading. If you are not prepared for class discussion, you may be asked to leave, in which case you will be marked absent.
Doing Your Own Work	If you turn in work that is not your own, you are subject to judicial review, and these procedures can be found in the College Catalog and the Student Planner. The maximum penalty for any form of academic dishonesty is dismissal from the College. Using standard citation guidelines, such as MLA or APA format, to document sources avoids plagiarism. The Library has reference copies of each of these manuals, and there are brief checklists in your Student Handbook and Planner. PLEASE NOTE: All papers may be electronically checked for plagiarism.

Tracking Your Progress	Your grade is based on all work turned in, including tests. The instructor will be able to help you determine your grade at any specific time.
Sharing Your Class Experience	At the end of the term, you will have the opportunity to evaluate your classroom experience. These confidential surveys are <i>essential</i> to our ongoing efforts to ensure that you have a great experience that leaves you well prepared for your future. Take the time to complete your course evaluations – we value your feedback!
Withdrawing from Class	After the last day established for class changes has passed (see the College calendar), you may withdraw from a course by following the policy outlined in the CCSJ Course Catalog.

Resources	
CCSJ Book Rental Program	The CCSJ Book Program ensures that everyone has the right course materials on the first day of class to be successful. You pay a book rental fee each semester, and in return, receive all the materials for all your classes prior to the beginning of classes. At the end of the semester, simply return the books. For traditional students, the Book Rental Program is conveniently located in the library, where students can pick up and return their books. For students in accelerated programs and graduate programs, books will be delivered to their homes and they can return them by mail. For more information, see http://www.ccsj.edu/bookstore . All books must be returned at the end of the semester or you will incur additional fees, which will be charged to your student account.
Student Success Center:	The Student Success Center provides faculty tutors at all levels to help you master specific subjects and develop effective learning skills. It is open to all students at no charge. You can contact the Student Success Center at 219 473-4287 or stop by the Library.
Disability Services:	Disability Services strives to meet the needs of all students by providing academic services in accordance with Americans with Disabilities Act (ADA) guidelines. If you believe that you need a “reasonable accommodation” because of a disability, contact the Disability Services Coordinator at 219-473-4349.
Student Assistance Program	Through a partnership with Crown Counseling , Calumet College of St. Joseph provides a free Student Assistance Program (SAP) to current students. The SAP is a confidential counseling service provided to students for personal and school concerns which may be interfering with academic performance and/or quality of life. The SAP counselor is available on campus once a week and off-site at the Crown Counseling offices in Crown Point or Hammond. For more information, contact Kerry Knowles SAP Counselor , at 219-663-6353 (office), 219-413-3702 (cell), or kerryk@crowncounseling.org .
CCSJ Alerts:	Calumet College of St. Joseph’s emergency communications system will tell you about emergencies, weather-related closings, or other incidents via text, email, or voice messages. Please sign up for this important service annually on the College’s website at: http://www.ccsj.edu/alerts/index.html .
