

Making Your Course Available in Blackboard 9.1

All courses are automatically marked as “unavailable” until the instructor makes them available to their students. This allows the instructor to build content and then when he/she is ready, they can activate (make available) the course to their students. Please note you will need to follow these instructions for every course you are teaching.

Step 1: Go to the course you wish to make available.

Step 2: Go to the [Control Panel](#).

Step 3: Select [Customization](#).

Step 4: Select [Properties](#).

Step 5: Select [Yes](#) next to “Make Course Available”.

3. Set Availability

Make this course available to users?

Make Course Available Yes No

Step 6: Click the blue [Submit](#) button.

7. Submit

Students can now view your Blackboard course.
