

The Plan for Professional Development for the Upcoming Academic Year

Corresponding to Part III of the Annual Faculty Evaluation Form, q.v.

The Plan for Professional Development for the Upcoming Academic Year

The Plan for Professional Development is completed as part of the strategic planning process within the various programs and/or departments within the College. It is an opportunity for all faculty members, in collaboration with their respective Program Director or Department Chair, as applicable; to assess the areas of professional activity and development in one or more of the four domains of scholarship that will, during the next academic year, contribute to the attainment of programmatic and/or departmental goals. Additionally, the faculty member has an opportunity to identify areas of special academic interest that he/she plans to pursue or is currently pursuing for his/her own academic enrichment and scholarly development. This is initially completed in Section I of the Annual Self-Evaluation form and expanded here.
