The area of each rectangle is proportional to the chart values (i.e. both college and academic program headcounts in this case). The JavaScript Highcharts library at <https://www.highcharts.com/> was used to create the data visualizations.

<sup>12</sup> Note 1: The definitions used to determine the various credit hour categories were simplified (adjusted) from earlier fact books to correspond more closely to CCSJ billing practices. **Graduate courses** are identified as course sections with a course level (CLVL\_ID) of G. **Traditional undergraduate courses** are defined as course sections with a course tuition billing ID code (TUIT\_ID) of 01. **Traditional Intercession courses** are defined as course sections with a course tuition billing ID code (TUIT\_ID) of 11. All other courses not satisfying the above criteria default to **Degree completion courses**. Note 2: The enrolled course section headcounts and thus the credit hours enrolled calculations include W-status students.

*Notes:*

- 1) The IPEDS cohorts (Traditional programs, first-time, full-time, Bachelor's degree-seeking freshman) were used for the HERI graduation rate calculations.
- 2) The predicted values were computed using the HERI Basic Graduation Rate Calculator available at <https://heri.ucla.edu/graduation-calculator/>
- 3) The HERI Basic Graduation Rate Calculator uses a logistic regression model with the predictors: gender, SAT composite mean score, ethnicity, and high school grade score.
- 4) Empower High School GPA data was converted to the High School Grade scores required by the HERI model using the CCSJ quality points/grades table.
- 5) Students with ACT composite scores were converted to an equivalent SAT composite score using Table A2 of the 2018 ACT/SAT Concordance Tables (<https://www.act.org/content/dam/act/unsecured/documents/ACT-SAT-Concordance-Tables.pdf>)
- 6) The IPEDS actual 4-year and 6-year graduation rate data is from the standard IPEDS Graduation Rates reports.
- 7) New table data shown in reverse (white font color, black fill color)
- 8) All other table data carries over from previous fact book.

**Notes:**

- 1) Cohort included first-time students starting in the prior Summer term (i.e. 20143)
- 2) Cohort included students if Bachelor-degree seeking at any point in their term record (i.e. not using start term major only)
- 3) Stop-outs = (Grand Total at cohort start) - Retained - (NonReturners Earning a Bachelors).
- 4) Students with an Associates-level major in the cohort start term are assigned to programs based on the associates-level major in the cohort start term.
- 5) Grad rates per program are calculated as number of students earning a Bachelors in the program divided by the number of students in the program at the cohort start.

**Notes:**

1) The 2021-22 Graduate Report degrees awarded section includes December 2021, May 2022, and August 2022 graduates.

2) Post-Graduate Placement is currently defined as either:

- Gainfully employed, meaning the graduate is currently working in a field related to their degree, or is employed in a full-time capacity that pays them over \$30,000 annually.

- Continuing their education, meaning they have enrolled in a Master's or Doctoral program either here at CCSJ or at another accredited university.

3) CCSJ has established a Post Graduate Placement objective of 85% within one year of graduation. Therefore, finalized data for 2021-22 will be reported after August 2023.
