Preparation for Drug and Alcohol Abuse Prevention Program (DAAPP)

The Drug-Free Schools and Communities Act (DFSCA) and its Part 86 implementing regulations pose ongoing, annual and biennial requirements for Calumet College of St. Joseph (CCSJ or The College) to comply as a condition of receiving federal funds. The purpose of the DFSCA is to prevent the unlawful possession, use and distribution of illicit drugs and alcohol by students and employees on institutional property, or as part of any of its activities.

Accordingly, the college DFSCA/Part 86 Compliance Official is designated with the responsibility for establishing and maintaining procedures consistent with facilitating institutional compliance with the following requirements:

- Maintaining a comprehensive Drug and Alcohol Abuse Prevention Program (DAAPP) document on behalf of the college that contains all required components.
- Annually distributing the DAAPP document to all students and employees, and actively distributing to students and employees that join the college after the initial annual distribution.
- Completing a biennial review process of the DAAPP in order to determine its effectiveness and ensure that disciplinary sanctions imposed by the college are consistently enforced.

CCSJ is committed to providing its students and employees a drug and alcohol-free workplace and learning environment. As part of the commitment to the provision of high quality and effective service to our students, employees and the public, CCSJ has a drug and alcohol abuse prevention program in operation. The program is accessible to all members of the college community. Part of that commitment means understanding and taking seriously our obligations to inform the campus community of available resources as well as the disciplinary, health, and legal consequences of use and abuse of alcohol and illegal drugs.

Please note that the college maintains this DAAPP separately from the college policy on Alcohol and Other Drugs.

On a biennial basis, Calumet College conducts an internal review of its alcohol and drug program. Calumet College is committed to monitoring and assessing the effectiveness of the policy and program and what changes need to be made. A copy of the biennial report is available upon request by contacting Dionne Jones-Malone at djonesmalone@ccsj.edu.

An electronic version of the most recent Annual Security Report and the Fire Safety Report is available online at <https://www.ccsj.edu/student-life/campus-security/>

If you would prefer a paper copy of this information, please contact Mrs. Lynn Miskus, Vice President of Business and Finance at lmiskus@ccsj.edu.

Operation of the Program

CCSJ has established a drug-free and alcohol abuse awareness program to inform its faculty, staff, and students about the dangers of drug and alcohol abuse and the penalties that may be imposed for drug and alcohol abuse violations. The Drug and Alcohol Abuse Prevention Program is available to all faculty, staff, and students of CCSJ. As part of this program, CCSJ has implemented several measures:

- Annually, employees and students are made aware of the Drug and Alcohol Abuse Prevention Program and Policy by means of electronic mail.
- New staff and faculty members are informed of the policy at New Employee Orientation.
- Students are sent the policy (through electronic mail) each new semester to ensure the content is conveyed to all students attending CCSJ.
- In addition to the annual notification, students and employees are offered online material on drug and alcohol abuse.
- Multiple events are held annually discussing the dangers and impact of drug and alcohol abuse at CCSJ. Such events include, but are not limited to training sessions, and counseling workshops. These programs are open to CCSJ students and employees free of charge.
- All full-time employees are eligible to participate in the Wellness Program, which encourages CCSJ employees to engage in fitness activity. This program promotes a healthy lifestyle, away from the pressures or risks of drug and alcohol.
- CCSJ incorporates information about alcohol and drugs in its formal educational curriculum. Certain courses in Kinesiology, Education and Human Services address these topics.
- In an effort to maintain a safe environment, students and faculty participating in the health occupations and emergency services, athletics or child development programs may be required to undergo drug testing if there is reason to believe they may be impaired by a chemical or alcohol.

Biennial Review of the Program

This program is the joint responsibility of the Departments of Human Resources, Facilities and Security, Student Financial Aid, and Student Engagement and Retention. Notification of the program, including information about health risks and sanctions for violation of the policy, will be provided annually to the students and employees of CCSJ.

Committee members are as follows:

- Vice President of Student Engagement and Retention (Chair)
- Representative of Academic Affairs
- Director of Student Accommodations
- Director of Financial Aid
- Director of Human Resources
- Director of Residence Life and Student Programs
- Manager of Facilities
- Representative of Athletics
- Providing Access to Health (P.A.T.H.) Counselor

The Drug and Alcohol Abuse Prevention Program will be reviewed biennially. CCSJ is committed to monitoring and assessing the effectiveness of the policy and program and what changes need to be made. CCSJ ensures the uniform application of sanctions to employees and students. To perform this review, CCSJ uses both formal and informal assessments.

Formally, CCSJ maintains a Drug and Alcohol Prevention Review Committee, noted above. The Committee determines the effectiveness of this program and ensures the standards of conduct are fair and consistently enforced. In accordance with the Drug-Free Schools and Communities Act (DFSCA) articulated through the Education Department General Administrative Regulations (EDGAR) Part 86, a formal review of CCSJ's alcohol and other drug programs is assessed every two years.

Informal assessment methods used in the review include student focus groups, administrative overview, and informal student/employee surveys.

Modifications are made to the programs and the expected learning outcomes in an effort to evolve with changes in the student population.

A systematic prescriptive disciplinary process ensures each disciplinary referral is resolved appropriately, and the consequences or sanctions adequately address the nature of the issue. Emphasis is placed on student and employee development and a holistic approach to student learning and staff development.

Standards of Conduct

Calumet College of St. Joseph is committed to providing a safe and productive work environment for its faculty, staff and students. For this reason, the College maintains a drug, tobacco and alcohol-free workplace for employees and students.

Standards of Conduct

The following actions are prohibited at the College or while engaged in College related activities:

- Illegal use, sale, transfer, dispensing, distribution, possession, or unlawful manufacture of a controlled substance
- Being under the influence of controlled substances while on the job or on the College's premises. This includes, but is not limited to, marijuana, cocaine, crack, PCP, heroin, LSD, amphetamines, hallucinogens, and barbiturates, etc..
- Any such controlled substances found on the College's premises will be turned over to the Administration and Campus Security and may result in criminal prosecution.
- Violations to this policy will be considered gross misconduct and will result in immediate disciplinary action that includes but not limited to oral counseling, written reprimand, and warning, or termination.
- All faculty, staff, and students must abide by the terms of this policy. Should an employee be convicted of any criminal drug statute violation on the College premises or while conducting College related activities, he/she must notify the Human Resources Department no later than five (5) calendar days after the conviction.
- Except for limited circumstances approved by the President (i.e., services in the Chapel, Board of Trustee meetings, St. Joseph Society, Christmas parties and other specially designated events), the possession and/or use of alcohol on the job or on College's premises is prohibited. Being under the influence of alcohol on the College's premises is also prohibited.
- Alcohol possession applies to all open or unsealed containers which contain alcoholic beverages. Such containers are not allowed on the job or on the College's premises.
- Violators will be subject to disciplinary action up to and including termination.

College employees who are suspected of being impaired will not be allowed to continue working or remain in the workplace. Impairment is defined as a condition which:

- Affects the employee's ability to perform his or her job;
- Endangers the safety of an employee or others;
- May cause equipment or property damage; and
- May otherwise expose the College to a potential liability.

Such impairment when caused by alcohol, drugs, or controlled substance abuse is a violation of this policy. The College reserves the right to make a search of its premises and other owned property if a violation of this policy is suspected. The College also reserves the right to search the property of employees on College premises when there is a reasonable belief that there has been an abuse of a controlled substance or alcohol or a violation of this policy.

Disciplinary Sanctions

CCSJ Sanctions (Student Code of Conduct)

Alcohol Use: Use, possession, distribution, or being under the influence of alcoholic beverages or paraphernalia except as expressly permitted by law on University premises or at University-sponsored events or except when explicitly authorized by CCSJ Policies, Regulations and Procedures is prohibited. Amnesty

Calumet College of St. Joseph assures immunity (Amnesty) to students who may have violated the Code of Conduct's Alcohol or Drug Policy at the same time of an incident. Therefore, no alcohol or drug charges are applied to a student who reports that the complainant was under the influence of alcohol and/or drugs at the time of a misconduct incident.

The purpose of this clause is to encourage reporting. Complainants or bystanders (witnesses) should not let use of alcohol or drugs be a deterrent to reporting an incident. The College's primary focus will be on addressing the misconduct violation and not on alcohol/drug violations that may be discovered or disclosed. However, the College may provide referrals to counseling and may require educational options rather than disciplinary sanctions, in such cases.

Employees who violate the College policies and laws will be subject to disciplinary action up to and including termination. For further guidance, students are instructed to see the Student Handbook and employees are instructed to see the Employee Handbook.

In addition to the College sanctions, Indiana and Federal laws provide for fines and/or imprisonment for the unlawful possession, sale, manufacture or distribution of drugs or alcohol. The amount of fines and the length of the imprisonment vary according to the type and amount of the substance involved the offender's past record for such offenses, and a variety of other factors.

Legal Sanctions

Indiana and Federal Laws

In addition to the College sanctions, Indiana and Federal laws provide for fines and/or imprisonment for the unlawful possession, sale, manufacture or distribution of drugs or alcohol. The following information concerns the criminal penalties that can be imposed by state or federal statute for violations related to alcohol or illegal drug possession, use, sale, manufacturing or distribution. Conviction under state and/or federal laws that prohibit alcohol-related and drug-related conduct can result in fines, confiscation of automobiles and other property, loss of one's driver's license, and imprisonment. In addition, licenses to practice in certain professions may be revoked, and many employment opportunities may be barred.

It is impractical to list all the alcohol- and drug-related state and federal crimes and penalties. But all persons should be aware of the following:

- In Indiana any person under 21 who possesses an alcoholic beverage, and any person who provides alcohol to such person, is at risk of arrest.
- Any person who is intoxicated in public risks arrest.
- A person convicted of driving while intoxicated may be punished by fine, be jailed, and lose his or her driver's license.
- Any selling of alcoholic beverages without a license is illegal.

Possession, use, distribution, or manufacture of controlled substances (drugs) illegally can result in arrest and conviction of a drug law violation and:

- Fines up to \$10,000 (Indiana);
- Fines up to \$10 million for a first offense (federal);
- Imprisonment up to 50 years (Indiana);
- Imprisonment up to life (federal); and
- Confiscation of property.

Education, Treatment and Support

Employee and Student Assistance Programs

Calumet College of St. Joseph is responsible for offering a Drug and Alcohol-Free Awareness Program each year to which all employees and students have access. Topics for this program may include, but are not limited to:

- Drug-free workplace policy,
- Health effects of controlled substances and drug abuse,
- Community resources for employee and student rehabilitation from drugs or controlled substance abuse.

Through the resources of local, state and national efforts, assistance is available for those individuals with alcohol and drug abuse problems. CCSJ offers the following drug and alcohol abuse information, counseling, assistance, and services:

Employee Assistance Program (EAP): Perspectives, LTD

- Available to all CCSJ employees, both full- and part-time
- Video and phone counseling support
- 24/7 access via phone and online

In addition to the EAP, employees on a CCSJ medical insurance plan have additional resources for treatment of alcohol and drug abuse under health insurance coverage. Employees may contact Human Resources for additional assistance or reach out to one of the local or national resources noted below.
